| 0 | ٠ |

#### Selection field "Information" symbol

Here you will find the contact details of WHD.

You can also contact us directly via the activated e-mail addresses.

#### 4.

### Confirmation field "LOGIN"

The WHD Bluetooth configuration app now starts automatically search for active components.

# Note:

This may take up to 15 seconds.

You will receive a list of the available devices.

Select the corresponding device using the touchscreen.

#### Note:

The higher the dBm value, the closer you are to the device.

5.

Now you get to the menu item "Settings"

In the submenu "Bluetooth" (logo) you can

- the device name
- the pin code

change, or **delete** other already connected devices / smartphones from the overview list.

6.

#### Change device name:

Change the name of the device (Bluetooth message identifier) to your desired name:

#### Length: 30 characters maximum.

Allowed are

- Capital letter
- Lowercase letters
- Special character
- Numbers 0-9
- spaces.

Examples: kitchen, bathroom 1st floor, sleeping\_parents, ...

7.

### Security pin / access code:

Change the access code (PIN) of the device to your desired name:

Length: 4 characters maximum.

Allowed are - Numbers 0-9

**Examples:** 4711, 1101, ...

8.

# Sound Settings

In the submenu "Sound Setting" you can

- The advisory tones when pairing / decoupling
- the maximum volume (factory setting: 14)

- the DSP settings

to change.

#### Note:

When pairing / decoupling with Bluetooth, the device emits an acoustic signal (triad).

This also happens when you connect / disconnect the power supply of the device.

When switching on the device with the lighting, this may to be annoying. Then you have to switch off both advisory tones!

9.

## **DSP-Setting**

You can select different sound profiles in the **"Sound Setting"** submenu:

| Default        | ••• | factory settings                        |
|----------------|-----|---|
| Loudness       |     | bass / treble boost                     |
| No bass        |     | without bass playback (e.g. hotel room) |
| Exciter Preset |     | when using X.32 or X.25                 |
| Extra bass     |     | more bass-heavy                         |
| Vocal          |     | voice transmission                      |

## 10. Name and address of the manufacturer
